**CONDUCT OF
EXHIBITS:**

Exhibits must be manned during show hours. Consumers are on the floor until the last minute of the show and expect exhibitors to be in their displays. Only firms who have contracted and paid for space are permitted to demonstrate products, solicit orders or distribute advertising material at the show. Confine sales, distribution of literature, models and signs to your exhibit space.

DEMONSTRATIONS: The aisles are the property of the entire show and each exhibitor has the responsibility to assure proper flow of traffic through the entire show. When large crowds gather to watch a

demonstration or for sampling and interfere with the flow of traffic in aisles or create excessive crowds in neighboring booths, it is an infringement on the rights of other exhibitors. AISLES MUST NOT BE OBSTRUCTED AT ANY TIME.

REGULATION: Demonstration areas must be organized within the exhibitor's space so as not to interfere with any aisle traffic. Sampling or demonstration tables must be placed a minimum of 2' (60cm) from the aisle line. Show attendees who interfere with the normal flow of traffic or overflow into neighboring exhibits, Show Management will have no alternative but to request that the presentation or sampling be eliminated.

SOUND: Exhibitors must police their own booths to be sure the noise level from demonstrations is kept to a minimum and does not interfere with others. Show Management reserves the right to determine at what point sound constitutes interference with others and must be discontinued.
